

Duke Pediatric Neurology and Developmental Medicine

Comprehensive care
for children with
neurologic conditions

Consistently one of the best pediatric neurology
and neurosurgery programs in the region

Level 4
Epilepsy Center

Overview

Neurological disorders are complex and can affect many aspects of a child's life. Our pediatric neurologists and developmental medicine pediatricians treat the full range of conditions that can affect a child's brain, muscles, nerves, and neurodevelopment. We work with a team of specialists who focus on each aspect of your patient's care.

Our experienced team offers the full spectrum of care for patients with neurological conditions, including, but not limited to:

- Alternating hemiplegia of childhood
- Cerebral palsy and related conditions
- Fetal and neonatal neurologic conditions
- Headaches
- Movement Disorders
- Neurodevelopmental and neuropsychological conditions
- Neurofibromatosis
- Neuromuscular disease
- Neurogenetic conditions
- Seizures and epilepsy
- Sleep disorders
- Sports concussions
- Spina bifida
- Stroke and other neurovascular conditions
- Tuberous sclerosis complex
